Midterm Planning Homework

For Monday 2/27:

- Complete your visual brainstorming (see storyboarding PDF)
- Post a photo/PDF/slideshow of you visual plans to the #sharing channel

For Wednesday 3/1:

- Make an interactive sketch in Unity
- It should be a small feature from your project, built in Unity, for show & tell. This could be a terrain that you built, a 3D scene that you started assembling, an interaction you coded, etc.
